

Puretech[™]
delivering purity

WORLD CLASS PROCESS PIPEWORK ENGINEERING SOLUTIONS

Puretech Process Systems Ltd.

The group comprises three companies – Puretech, Medical Gases and Microgas Systems – which are united in their ability to deliver world class bespoke turnkey process systems designed and commissioned to deliver precisely what the client requires. Together we uniquely provide clients with a single source solution for their high purity system requirements.

For nearly four decades we have created and cared for the delivery of vital purified water, water for injection, pure steam, medical gases, specialist gas systems and validated process pipework systems at medical, pharmaceutical, biopharma, laboratories, semi-conductor and research facilities throughout the world.

We are justly proud of our ability to deliver excellence and our commitment to seeking out, exploring and creating new solutions. We know that total integrity of execution from us is essential to ensure our clients continue to break boundaries to ultimately improve the lives of us all. This is what drives us and we are committed to delivering our promise.

Water & Steam Systems

The purified water, water for injection and steam delivery systems Puretech supplies to pharmaceutical, biopharma, hospitals, research facilities and laboratories throughout the world are unrivalled in design and execution.

- Pre-Treatment Water Systems
- Purified Water Generation Systems
- Pure Steam Generation Systems
- Water For Injection (WFI) Generation Systems
- Storage and Distribution Solutions
- Process Pipework systems
- Laboratory Water Systems
- Mobile Water Purification Solutions
- Bio-Waste Decontamination Systems

Medical Gases

delivering purity

Gas Delivery Systems

Medical Gases is a world leader in gas delivery systems, with more than 40 years' experience in medical gas delivery systems for hospitals, pharmaceutical research facilities and laboratories.

Medical Gases' solutions allow the safe and uncorrupted travel of essential gases to reach the end user, never compromising in the delivery of unmitigated purity.

- Oxygen
- Nitrous Oxide - N_2O
- Medical Air & Surgical Air
- Medical Vacuum
- Waste Anaesthetic Gas Scavenging Systems (AGSS)
- Carbon Dioxide
- Laboratory gas systems
- Test Gas Mixtures
- Helium Quench Pipe Systems

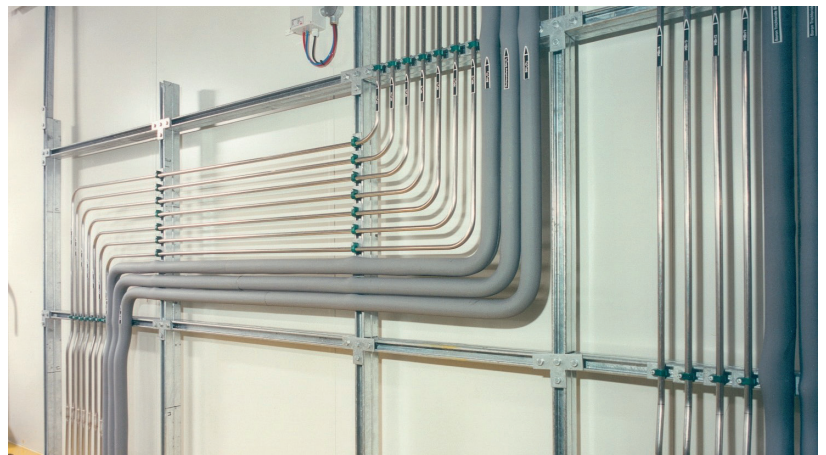

Specialist Systems

Microgas Systems has earned a reputation for innovation and engineering excellence with an unparalleled ability to meet the specialist requirements of clients. Microgas is committed to innovation and limiting adverse effects on the environment.

- Argon Recovery Systems
- Gas Recovery and Recycling Systems
- Ultra High Purity Bulk Installations
- Ultra High Purity Special Gas Installations
- UHP Manufacturing
- Design and Installation of High Purity Chemical Systems
- High Vacuum Systems
